## Speakers

### **AbdelRahman Fahmy | CGLN | Youth Advisory Councilmember for Manufacturing (Moderator)**

AbdelRahman is a Social and Environmental Entrepreneur dedicated to empowering innovations in Sustainable Economic and Environmental Development. To date, his ventures supported more than 5000 Beneficiaries in the field of Sustainable development education, 150 Startup Businesses, and more than 50 SMEs in their business development and Circular Transformation.

### **Hany Tarek El-Nabarawy | Executive Manager | Arab Mechanical Engineers**

Hany Tarek El-Nabarawy is the Executive manager of Arab Mechanical Engineers – AME Cairo. After starting at AME as a sales engineer, he has worked over 12 years to build AME into an organisation with over 200 employees, with a vision to become a market leader in the different sectors AME serves in. He believes in every business's obligation to pursue achievable long-term goals for its people and the society by delivering environmental and social values.

### **Khaled Abdellatif | Sustainability Consulting Group | Partner**

Khaled is strategist, thought leader, and seasoned consultant in the space of sustainability, with a mission to practically accelerate the sustainable shift across sectors. With an extensive track record spanning nearly a decade and across nine countries, he has been deeply engaged in catalyzing energy transition, transformational leadership, advancing technology development, and developing ESG strategies and initiatives. Khaled holds a master's degree from the University of Minnesota, where he specialized in Environmental and Energy Policy and Markets.
